Better Pricing—Lower Overhead

Does your business model require parts *just in time*? Can you commit to a larger *blanket* quantity in order secure lower pricing? Do you prefer suppliers to *stock* your parts and *release* them to you as needed?

Whatever your reason, whatever your needs, we can put our experience to work for you. We are a time-tested manufacturer with distributor capabilities. Our customers who implement this service experience improved cost control and savings.

We will manufacture larger quantity blanket orders for maximum efficiency and cost savings and store parts safely in our warehouse. We will then release smaller quantities to you as you need them. We have the ability to update your orders and forecasts on a daily basis to better accommodate the rapidly changing demands of your business. We can ship as little as one box or as much as multiple skids with less than 24 hour notice.

It is time to consider a Made-in-the-USA manufacturing option for more of your high usage parts. We offer highly competitive pricing for our large quantity blanket customers. Whether you want parts weekly, monthly or quarterly, Brainard can be your supplier.
